PROJECTS

Cross-Asset Universal Trading Intelligence

Mar 2025 - Aug 2025

- Developed GNN-based cross-asset trading system, improving correlation prediction by [Quantifiable Result].
- Engineered features (Hurst, volatility) to boost financial forecasting model accuracy.
- Integrated NLP for real-time economic regime detection, adapting trading strategies.
- Cross-asset correlation modeling using graph neural networks to capture market interdependencies.
- Built backtesting framework with stress testing for robust risk management.
- Economic regime detection via LLMs and GAN-generated synthetic scenarios for stress testing.

DivineWall - 4K AI Generated Wallpaper

July 2024 - Oct 2024

- Developed the DivineWall platform, a solution for generating and displaying 4K images.
- Built using TypeScript, Next.js, and React.js for a seamless and responsive user experience.
- Integrated AWS S3 for efficient image storage and AWS CloudFront for fast, secure content.
- Founded and grew a startup, acquiring 7000+ users across 15 countries and global reach
- Tech: TypeScript, Next.js, React.js, Replicate, AWS S3, AWS CloudFront

SanskritAI - AI Learning Sanskrit Platform

Sep 2024 - Feb 2024

- AI-powered platform for learning Sanskrit, creating an interactive learning experience
- Used Next.js for both frontend and backend development, optimizing server-side rendering
- Incorporated PyTorch and HuggingFace for AI-driven content generation and NLP
- Deployed the platform on AWS, applying DevOps practices for scalability and reliability.
- Teach: Next.js, React.js, Python, PyTorch, Hugging Face, AWS, DevOps

Indian Law AI Platform

Mar 2024 - July 2024

- Designed and developed an AI-powered legal search and assistance platform focused on Indian law, leveraging React.js, Next.js, and OpenAI integration.
- Features included intelligent legal query resolution, multilingual support, document upload and analysis, and real-time AI-driven suggestions.
- Tech Stack: React.js, Next.js, Node.js, Express.js, MongoDB, OpenAI API

ACHIEVEMENTS

- Developed 5+ full-stack applications with features like AI integration, real-time chat, and multilingual support, successfully deployed on platforms like Vercel and in Dockerized environments.
- Ranked 4th among 3,000+ participants in a state-level competition, demonstrating exceptional innovation and creativity in scientific problem-solving.
- Achieved 15,000+ international user visits, showcasing strong global engagement in open-source, AI-driven platforms designed for Sanskrit learning and 4K AI-generated wallpapers.

CERTIFICATES

- Full Stack Web Development | Harkirat Singh (100XDevs)
- Backend Development | (Coursera)
- Frontend Development | Yaakov Chaikin (Coursera)

EDUCATION

Lovely Professional University

Phagwara, Punjab

- Bachelor of Technology in Computer Science and Engineering
- Diploma in Computer Science and Engineering

Aug 2023 - Jul 2026
Aug 2020 - Jul 2023
